

# Splittable EMC Adapter

**Splittable adapter for retrofitting an EMC connection**
The splittable EMC adapter lets you connect a shielded cable at a later date without having to dismantle the entire installation.
The EMC adapter can also be used if a pre-assemble already exists around the shield connection.
The cable no longer has to be disassembled and withdrawn, because the two halves of the splittable EMC adapter are simply positioned around the exposed shield and joined together.
This results in high-quality EMC contact with very high screening attenuation and current-carrying capacity.

## Specification

| | |
|---|---|
| **MATERIAL** | Brass nickel plated (CuZn39Pb3) |

## Variants

| E-NUMBER | ARTICLE NO. | CONNECTION THREAD | INTERNAL THREAD | SCREEN Ø MM | L MM | H MM | SW1 MM | E1 MM | PCS/PACK |
