Nylon Cable tie with tooth in stainless steel - ME.T - Black

The **ME-T** cable tie is made of **self-extinguishing polyamide 6.6 (UL94:V2)**. It consists of a rack-free body with rounded edges and a square head with a stainless-steel tightening tooth that provides greater resistance to cold and greater stability where installations are subject to vibration.

Transparent color on request.

Specification

MATERIAL	Nylon 6.6 V2
COLOUR	Black
