M5* Schrauben
mit 2,0 Nm anziehen

Tighten M5 screws with 2.0 Nm*

* Bei UL Type 5 sind Schrauben aus rostfreiem oder verzinktem Stahl zu verwenden (gilt nicht für CABseal clean und CABseal rail). Für die Verwendung in Innenräumen des Typs 4X müssen die Schrauben aus rostfreiem Stahl AISI Typ 304 oder 316 hergestellt sein.

* For UL Type 5, screws shall be made of stainless steel or galvanized steel (does not apply for CABseal rail). For Type 4X indoor use, screws shall be made of stainless steel AISI Type 304 or 316.

i

Die Evaluierung der UL-Schutzklassen erfolgte mit gerade durchgeführten Kabeln ohne Biegungen oder einwirkende Versatzkräfte. Die ordnungsgemäße Montage für die Endanwendung ist dementsprechend auszuführen. Zug- und Rückschubentlastung der Kabel sind in der Endanwendung einzubringen.

UL Type ratings were evaluated with cables feed straight through, without any bending or misalignment forces on the same. This shall be considered for proper end use mounting. Strain relief and push back relief on cables shall be up to the end user to provide it in the end use.

i

Für CABseal clean ist ein optionales Befestigungsset erhältlich.

An optional fixing kit is available for CABseal clean.
